Cultivation + Extractions + Testing Labs

The science is green, and so is your magazine:
Printed six times per year with soy-based ink on recycled paper.

Introduction / About

As cannabis products become legal a dynamic marketplace is fueling the rapid industry growth from state to state. Cannabis science in the form of extraction, testing labs, and cultivation are the glue of legalization.

CBD Health and Wellness reflects the evolution of method, mind, and matter intrinsic to these industries. Each of these individual segments of the conglomerate of legal cannabis now have a voice through this dynamic publication.

CBD Health and Wellness is a brand-new magazine focusing exclusively on the sale, production, and research of CBD and other Cannabinoids. It is a MACE Media Group subsidiary and sister publication to the hugely successful Terpenes and Testing, Extraction Magazine, and Cannabis Packaging News.

Drawing on experts from around the world, CBD Health and Wellness hopes to connect readers with qualified and accurate sources of information. We will find the hard facts surrounding CBD, describe the current state of the CBD market and research, and help cultivate the industry's rise over the years to come.

The release of our publication coincides with the upcoming CBD Expo West in Anaheim, CA, an event which will feature more than 100 exhibitors, along with a large lineup of presentations and panel discussions from experts in the production, distribution, and sale of CBD products. Following the outpouring of interest in the expo from its earliest days of conception, we knew that we had to expand our involvement in the CBD market.

CBD Health and Wellness is the cannabis industry's leading news source specifically for CBD and cannabinoid news and research.

As the only CBD-exclusive publication in the world, we are already at the front lines when it comes to news, methods, and equipment involved in every aspect of the CBD Industry. CBD Health and Wellness strives to bring together entrepreneurs and business leaders in the world of CBD to learn from and educate others about working with this wonderful, beneficial compound.

As the only cannabis-derived product that is almost entirely legal worldwide, CBD represents a product with unbridled potential for economic and therapeutic success. Those already immersed in the promising CBD industry will appreciate the level of detail in our articles and in-depth reviews. Business professionals and entrepreneurs who read our reviews will find themselves equipped with the tools to understand the complicated industry from a broad scope. And interested laymen will be thrilled at our informative and fun approach towards journalism. No one should miss out on the opportunity to network, learn, and explore the world of CBD with us.

Welcome to your world – let's expand it together.

The science of information is our business.

The rapid evolution in both the modes of testing cannabis products and methods of extracting cannabis concentrates means everyone in these industries has one thing in common, above all: they are too busy to chase needed information.

CBD Health and Wellness offers the crucial information component needed in one publication to help cannabis professionals grow and thrive.
